ecosmob
makes your vision a reality

ecosmob
makes your vision a reality

Ecosmob Technologies is an India-headquartered global software maker leader.

We have:

- Expert programmers to help you glean insights from Big Data

- Right blend of business astuteness and AI/ ML

- 15+ years experience serving global clientele

- Client-centric, consultative, and collaborative approach

- End-to-end custom AI/ML services

ecosmob
makes your vision a reality

**Our team can help you with the latest in AI/ ML:**

Advanced machine-learning solutions along with powerful data mining techniques.

Solving problems with image recognition, natural language processing & speech recognition.

Top-notch conversational technology with chatbots, digital assistants, and robotic process automation.
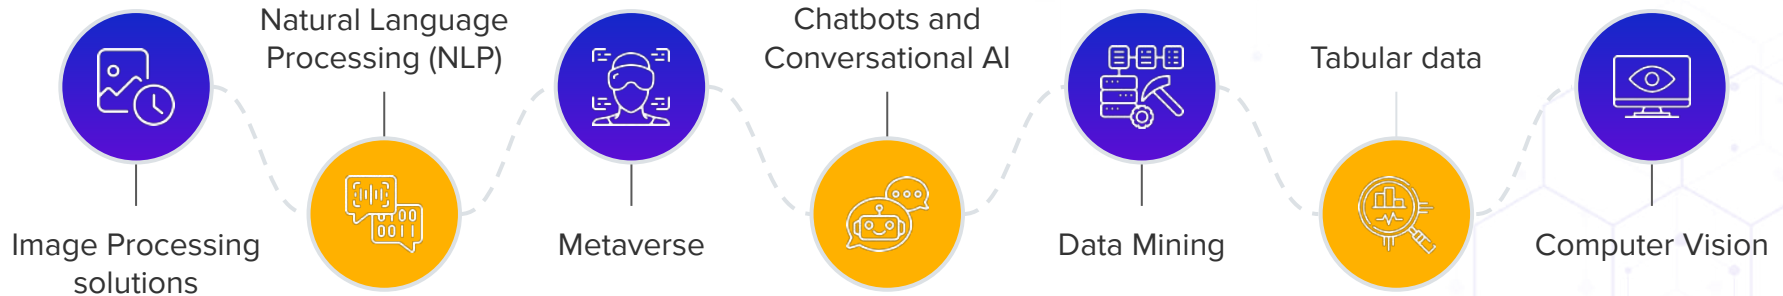

Development of chatbots for various platforms.

Reduction in human errors.

Prevention of data and fast data-driven decisions.

ecosmob
makes your vision a reality

The Ecosmob AI/ ML experts are well versed in creating the most advanced solutions as per the market trend and client needs. We can help you build custom solutions using cutting-edge technology:

Natural Language Processing (NLP)

Chatbots and Conversational AI

Tabular data

Image Processing solutions

Metaverse

Data Mining

Computer Vision

AI/ML SERVICE OFFERING

We cover the full-suite of AI/ ML solutions. With a nuanced process we follow the step-by-step approach for deep analysis and solution fit.

AI/ML

- Implementation
- Customization & Development
- Integration
- Consultation
- Fit-GAP Analysis
- MVP Creation

ecosmob
makes your vision a reality

ecosmob
makes your vision a reality

With a host of custom designed AI/ ML solutions, we have helped our clients achieve desired outcome and build powerful tools for:

Face Recognition

Emotion Analysis

Machine Spare part identifier

Chatbots

Document Analysis (Scanning Financial Records)
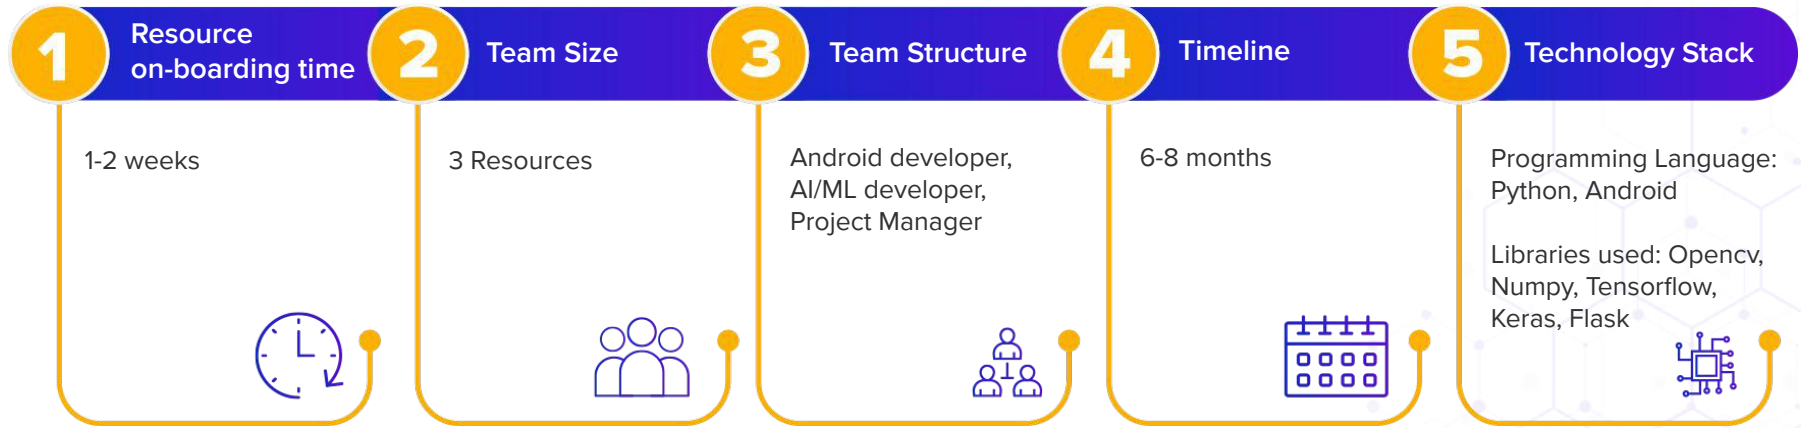

Fraud Detection

Our qualified software engineers and IT experts use the latest technology stacks and frameworks.

- Computer Vision and Image Processing: Opencv

- Scikit - Learn

- Deep Learning Frameworks: Tensorflow, keras

- Chatbots and Conversational AI: RASA

- Web Frameworks: Django, Flask

- Data Visualization: Tableau, Qlik Sense, Power BI

ecosmob
makes your vision a reality

We have successfully helped our clients overcome complex challenges with AI/ ML solutions by simplifying the process and creating state-of-art:

Face Recognition Solution

1 Resource on-boarding time	2 Team Size	3 Team Structure	4 Timeline	5 Technology Stack
1-2 weeks	3 Resources	Android developer, AI/ML developer, Project Manager	6-8 months	Programming Language: Python, Android Libraries used: Opencv, Numpy, Tensorflow, Keras, Flask

PROJECT SUCCESS STORIES

Machine Spare part identifier Project

1 Resource on-boarding time	**2** Team Size	**3** Team Structure	**4** Timeline	**5** Technology Stack
1-2 weeks	2 Resources	AI/ML developer, Project Manager	4-5 months	Back-End- Programming Language: Python 3.6 Libraries- -For Image Processing: Opencv, Scikit-Image -For Model Training: Scikit-Learn -For Model Saving and Loading: Pickle -To read the file generated of specifications as dataframe: Pandas

PROJECT DEVELOPMENT PROCESS

ecosmob
makes your vision a reality

Our project development process follows agile methodology which encompasses:

Project Development Process

Requirement gathering

Planning

Design and Development

QA

Project delivery

Track and Monitor

Maintenance

Problem Understanding

Data Investigation and Cleaning

Minimal Viable Model

Deployment and Optimization
